<b>In the Box:</b>	(x2) Model 6045 Fog Lights (Kit) <b>OR</b> (x1) Model 6045 Fog Light
<b>Input Voltage:</b>	12V DC
<b>Operative Voltage:</b>	9-18V DC

### REGULATORY COMPLIANCE:

### PRODUCT WARRANTY:

If you have issues with a J.W. Speaker product, please contact the authorized retailer where you purchased it.

### PRE-INSTALLATION INSTRUCTIONS:

1. Read all safety notes and mounting guidelines before installing the product. Verify that all parts listed under "In the Box" are present and complete.
2. Inspect the product for damage. DO NOT install the product if there is any damage. Contact the authorized retailer where you purchased it to initiate a warranty claim if there is damage.
3. Verify that all power supply and/or charging systems comply to the specified voltage limits for the light.

### INSTALLATION INSTRUCTIONS:

1. Turn off the vehicle and disconnect the battery.
2. Remove the existing fog lights from the vehicle. Be careful not to damage the vehicle and keep all hardware that attaches the fog light to the vehicle.
3. Unplug the connector of the existing fog light.
4. Firmly connect the Model 6045 connector.
5. Lay and secure wires to avoid any pulling or abrasion that may damage the wires or light.
6. Install the headlight with the existing hardware, making sure the J.W. Speaker logo is legible/right-side up.
- 7. Aim the lights.**

### FOG LIGHTS MUST BE AIMED AFTER INSTALLATION:

Fog lights must be securely mounted and properly aimed such that the beam pattern "cut off line" complies with all applicable regulations. If you are not familiar with the legal requirements for aiming your fog lights, please see a professional service provider. We recommend that fog lights are aimed with an system for proper alignment.
